

Valmaric Eldamar version 1.0

Valmaric Eldamar is a TrueType font for writing the *Valmaric* script invented by J.R.R. Tolkien, as described in issue 14 and 15 of the journal *Parma Eldalamberon*.

The latest version of the font can always be found on the *Amanye Tenceli* web site at:
<http://at.mansbjorkman.net>.

Copyright notice

The *Valmaric Eldamar* font is created by Måns Björkman © 2005-2006. It is licensed as freeware, meaning you are free and even encouraged to make copies of this font and share it with others. The accompanying files, including this documentation, should for practical reasons always be distributed together with the font. You may not alter the contents of the font or any of its accompanying files without written consent of the author. Distributors of shareware collections are asked to contact the author for permission before including this font and its accompanying files in any of their distributions.

Sources

The following publications have been my sources for the design of this font.

Arden R. Smith (ed),

- “The Valmaric Script”
Parma Eldalamberon 14 (2003): 89–134
- with Christopher Gilson (ed), “English-Qenya Dictionary”
Parma Eldalamberon 15 (2004): 65–84
- “Addendum to *The Alphabet of Rúmil* and *The Valmaric Script*”
Parma Eldalamberon 15 (2004): 85–88

Distribution contents

- valmarel.ttf — the Valmaric Eldamar font file, in TrueType format.
- valmarel_pfb.zip — ZIP file containing Valmaric Eldamar font files in PostScript Type 1 format.
- valmariceldamar.pdf — This documentation, in Adobe PDF format.

Installing the font in Windows 95 or later

- In the Windows Start menu, choose *Settings, Control panel* (In some versions of Windows you can choose *Control panel* directly from the Start menu).
- When the Control panel has launched, open *Fonts*.
- In Fonts, choose *File, Install new font...*
- Navigate to the location where you stored the font files, select the font “Valmaric Eldamar”, and click the *Open* button.

If you want to install the PostScript version of the font, you must first unzip the file valmarel_pfb.zip included in the release. Depending on your Windows version, you may have to use Adobe Type Manager to install PostScript fonts. In that case, please consult your ATM manual on how to proceed.

Character reference

To access each character in Windows, hold down ‘Alt’ and, on the numerical keyboard, press ‘0’ + the Character Code. (Or, when possible, simply select the ANSI Character from the keyboard.)
